

## ***Canvas at South Hills***

### **What is Canvas?**

Canvas is a web-based learning management system. Your instructors can use this tool to communicate with you, distribute handouts, provide coursework, keep a running total of your grades, and much more.

### **How do I access Canvas?**

You can access Canvas by navigating to [canvas.southhills.edu](https://canvas.southhills.edu) – You use your South Hills assigned username and the same password as your email to log in.

**\*\*Note\*\*** You may not have access to Canvas or your courses in Canvas until the first day of classes when your instructors make content available to you.

### **Where do I go if I need help?**

Canvas provides an awesome help resource. You can access this resource by navigating to [https://community.canvaslms.com/t5/Canvas-Student/ct-p/canvas\\_student](https://community.canvaslms.com/t5/Canvas-Student/ct-p/canvas_student). Here you can access Canvas Guides (descriptions on how to do anything in Canvas) or videos (step-by-step demonstrations of Canvas tasks).

You can also email [MyIT@southhills.edu](mailto:MyIT@southhills.edu) for issues with Canvas or for additional assistance.
